the SPASOVSKI FAMILY

mission activities @ christian center macedonia

Love and patience.

It has been an busy and very intensive period for us in Macedonia. Yet we cannot express with words how fulfilling and how much we feel blessed to be in Macedonia. God have really blessed us with such a grace over our lives that we are overwhelmed each time we see it's manifestation.

The church that we lead in Skopje, Christian center 490 is such a good place to be. We see people saved, and becoming part of the church's vision. This is a process which all leaders or Pastors wish to go faster, but it does take time. Actually once I heard a sentence within me which I believe can be helpful for others who lead churches. "For the leader now, is no longer the need to know if he have faith, but rather to know if he have the patience or the persistence with the people"

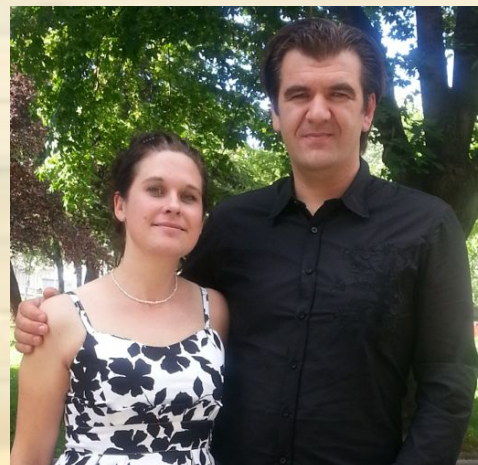

God have given us patience and love for the people and we teach and train them in the truth of the risen and victorious Jesus.

The religious traditional belief system have left the people in Macedonia with a damaged image of God. The fear level is enormous and its obvious even for a first time visitor. For us, this is a reality that we go against every day. Obviously a key which we have learned from John is that "perfect love, casts out all fears" 1 John 4:18 so we grow in this understanding and truth so we can be an example in Macedonia.

We have a team which we have named it Servant team, and those are people who are helping us in leading the functional and the practical life of the church.

We are so grateful for all who pray and stand with us for what we believe God is doing in Macedonia.

We thank those who support us financially. May God bless you with the abundance of his Grace.

Zoran and Rebecka Spasovski

Missions in Macedonia

The work in the Strumica region is growing. There are many situations in which the church have seen the hand of God moving and also many testimonies of the power of God invading people's everyday life's.

It is a privilege to be part of this reality and to see how people are touched by God and how they change in front of your eyes. The conversions sometimes are gradual as the Holy Spirit is working on the people but also they can be very dramatic and instant.

Healing and miraculous are regular part of the evangelism and the testimony which the church carries.

Together with Evangelist Vane we are working on developing the strategies to use all what we have and to be a blessing for all who live in that region and further.

One month ago we opened the Training Bible School in Strumica. We have 7 students who are part of the school during the week and on the Friday's they go to new villages to practice what they have been trained. Planting churches.

The strategy and plans for the next 5 months are: to visit and work in 20 new villages (out of 72, in the region of Strumica) and to see where the Holy Spirit will open a way to start new churches.

This is a big project and we don't want to go in what we know, but rather to be lead by the Holy Spirit.

If God have put the Mission in Macedonia on your heart than you can pray for us and the whole work. Here are some directive.

- Pray if you will for us as a family in Skopje while we lead the church to not get tired with all the details of ministry, but to always be fresh and alerted to the lead of the Holy Spirit.

- Pray for Strumica team. That they will be protected and healthy to be able to finish the task set in front of them.

- Pray for us as we train new leaders and starting new churches.

We are really thankful to know you and also to know that our friends, brothers and sisters and churches are praying for us here in Macedonia.
